

Protect your future

Gain peace of mind for
the future with NewLaw's
Will and Lasting Powers
of Attorney services.

Experiencing a personal injury can make you think a lot more about what's important in life. You want the assurance that your loved ones will be looked after should the unthinkable happen.

Don't lose your ability to choose and protect yourself. Leave the decisions to those you trust.

Making a Will

Making a Will can really make things easier for loved ones and ensures that your family avoids unnecessary legal and financial problems at what will be a difficult time. Our team at NewLaw are here to help you achieve that peace of mind.

Lasting Powers of Attorney

For extra protection we also offer a Lasting Power of Attorney service. This document will allow you to choose someone now that you trust to make decisions on your behalf about things such as your property and financial affairs or health welfare if you are unable to do that for yourself.

Estate Administration Service

We offer a fixed fee estate administration service to help you obtain Grant of Probate or Letters

of Administration. We recognise that if the worst happens your family may need some straight forward help at a difficult time without incurring high costs.

Next steps

Many circumstances can be dealt with over the telephone quickly, at an affordable fixed fee.
